General Rules

1. NWVS Endurance Runs are NOT A RACE. They are timed road rallies in which the target finish-time is based on driving within the posted speed limit and employing safe driving techniques.
2. Scoring is based on completing the run closest to the target time and reaching checkpoints along the way. Point penalties are as follows: 1,500 for each missed checkpoint; two points-per-second when finishing *below* the target time; one point-per-second when finishing *above* the target time. The lowest point total wins.
3. All vehicles must be based on prototypical speedsters popularized from the dawn of motoring into the early 1930s. Bodies must have a likeness to the speedsters, racecars, and cut-downs of the era. Engine blocks must be four-cylinder, 1934-type or earlier. Modern manual transmissions are permitted.
4. All speedsters must prominently display an NWVS-assigned vehicle number on both sides; any other extraneous competition numbers must be obscured. NWVS members will use their assigned competition numbers from the NWVS Registry. Guests can secure a temporary number from NWVS on per-event basis. Guests are permitted to use competition numbers from other clubs as their temporary number, provided it doesn't conflict with existing NWVS Registry numbers. If needed, tape can be used to render an existing number unique for the event.
5. Each participant is encouraged to avail themselves of a vehicle safety courtesy-check prior to the run, if offered.
6. All drivers and navigators are encouraged to wear white coveralls, or authentic driving attire that corresponds to the period of their speedster.
7. Each vehicle must have a riding navigator, if possible. Single-driver race cars are excepted from this expectation.
8. Safety devices not pertaining to the speedster era, such as hydraulic brakes, are allowable so long as they are in good working order.
9. Wheels used on vehicles must be of the era, either factory or period-aftermarket. Period-correct replica wheels are also permitted. All other modern-style wheels are not permitted (i.e. mag, alloy, chrome, forged, etc.)
10. Wooden spoke wheels must be sound and tight. Loose wheels will not be allowed.
11. Wire wheel hubs showing cracks at bolt holes and/or attachment points of spokes will likewise be cause for disqualification.
